

# SURREY LANDSCAPES

## NICK OAKLEY

“With his acute attention to magical moments, Nick has ably demonstrated that Surrey offers an extraordinary variety of spectacular landscapes.”

*Charlie Waite*

More people than ever are feeling the need to get out into the countryside and enjoy the space and freedom it offers. For some this is a new experience, for others it is a familiar retreat.

*Surrey Landscapes* is the first book of its kind to explore the natural spaces of the county through stunning photography, providing not only a greater appreciation of what it has to offer, but also the inspiration for others to enjoy it more.

The images take you on a journey through the scenic and seasonal wonders of Surrey, showcasing both the iconic locations with big vistas that attract countless visitors each year and those intimate views that are less well known and off the beaten track.

**Design:** The book has been designed with a contemporary feel, photographs printed across the double page to draw the viewer into the moment. Each image is accompanied by a title, location and short caption that offers greater understanding of the photograph as well as the countryside through details about the local history, geology or geography.

**Foreword:** The foreword has been written by one of the world’s leading landscape photographers, Charlie Waite. He is a prodigious author, founder of the Landscape Photographer of the Year competition, and founder of the Light and Land photography tour company.

**Author:** Nick Oakley is a landscape photographer who has lived in Surrey for nearly all of his life. He gained a love for the natural world from a childhood spent in the countryside and combined this with his passion for photography, blending his experience of nature with creative expression. His approach to photography aims to share the uplifting experience and visual depth that the landscape provides.

Publication:	APRIL 2021
